

seca 665

Wireless electronic wheelchair scale

EMR-integrated

- High capacity.
- Flat platform with self-lowering ramp.
- Integrated pre-TARE function.
- Easy to fold together and transport.

seca 665:

Real comfort due to concentration on the essentials

Safety, functionality, aesthetic design the seca 665 sets standards in medical weighing. Specially designed for weighing patients in wheelchairs, in rehabilitation centres, old people's homes, in hospitals and in dialysis centres, this scale provides both its users and patients maximum comfort and safety.

High capacity and easy to mount ramp.

Due to the scale's load-bearing capacity of 300 kg, weighing even heavy wheelchair patients is effortless with the seca 665. An extremely flat platform with an automatically lowered ramp ensure that the scale is easy to mount. The firmly installed side rails and a black ribbed rubber surface are additional safety features.

Integrated pre-TARE function.

With the pre-TARE function, the weight of the wheelchair can first be stored. Then, at the touch of a button, the weight of the wheelchair can be deducted from the total weight of the patient and wheelchair, thus automatically calculating the weight of the patient.

The platform's side rails keep a wheelchair safe and secure.

Easy to fold together and transport.

A rotatable LCD display with large figures is easy to read both for the patient and for the carer. An important additional advantage is the mobility of the scale: the seca 665 can be folded together in no time at all and pushed along on its transport castors.

The seca 664 simply folds up and moves easily across the floor on castors.

Paperless and error-free wireless transmission of measurements.

With the seca 360° wireless technology, the seca 665 can transmit measurements to the optional seca 360° wireless digital printer. With the network-capable software solutions seca analytics 115 or seca emr flash 101 and wireless USB adapter seca 456, your PC can receive and analyze measurements and forward them to an Electronic Medical Record (EMR) system. The seca 665 is EMR integrated, ready to handle digital patient records and all the demands the future will bring. For more information about EMR integration, visit: www.seca.com.

seca 665

Technical Data

- Capacity: 300 kg
- Graduation: 100 g < 200 kg > 200 g
- Dimensions (WxHxD): 1,102 x 912 x 1,150 mm
- Dimensions/platform (WxHxD): 800 x 55 x 965 mm
- Weight: 33.4 kg
- Power supply: power adapter, rechargeable batteries
- Funciones: TARE, pre-TARE, HOLD, auto-HOLD, BMI, auto-CLEAR, auto weighing range switch-over, damping, automatic switch-off, SEND/PRINT
- RS232 compatible
- Approval class: 
- System compatible with: 360° wireless printer advanced seca 466, 360° wireless printer seca 465, 360° wireless USB adapter seca 456, software seca analytics 115 and seca emr flash 101, stadiometer seca 274 or seca 264
